Application Form for Blocking Existing Hard Disk(Systems)

Please read the given below instructions before sending blocking/surrendering the license request.

Conditions	User Should Not Do	User Should Do
System Format	User should not send request for Blocking / Surrendering the license.	If system formatted, then re-install the software again with the same Activation Code.
Mother Board Change	User should not send request for Blocking/Surrendering the license if mother board changed.	If Mother Board changed, then re-install the software again with the same Activation Code.
Purchase New Computer		If purchased new computer, then first **Surrender the license** from the previous computer, then install the software in the new computer with the same Activation Code.
Hard Disk Theft, Fire, Crash etc.		User should send Blocking / Surrendering the license key request.
Use of External Hard Disk	Do not send Blocking / Surrendering the license key request from the external hard disk unless & until you remove the damaged hard disk from the computer.	Before sending blocking / surrendering license request, user should replace the damaged hard disk with the new hard disk and then send the blocking / surrendering license request.

Note:

1. The Key once blocked on old system will not be working on it ever again.
2. There is No provision of blocking software on "Temporarily Basis".
3. Those that have purchased software from our Local Vendor/Dealer, Kindly send this form to their email ID and CC to info@saginfotech.com.
4. Send blocking request from your registered email ID.
5. Application Form should be sealed & signed.
